SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What Information Collection Activity or ICR Does this Action Apply to?

Title: TSCA Section 4 Test Rules, Consent Orders, Enforceable Consent Agreements, Voluntary Testing Agreements, Voluntary Data Submissions, and Exemptions from Testing Requirements.

ICR number: EPA ICR No. 1139.11.

OMB control number: OMB Control No. 2070-0033.

ICR status: This ICR is currently scheduled to expire on August 31, 2016. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 4 of the Toxic Substances Control Act (TSCA) is designed to assure that chemicals that may pose serious risks to human health or the environment undergo testing by manufacturers or processors, and that the results of such testing are made available to EPA. EPA uses the information collected under the authority of TSCA section 4 to assess risks associated with the manufacture, processing, distribution, use or disposal of a chemical, and to support any necessary regulatory action with respect to that chemical.

EPA must assure that appropriate tests are performed on a chemical if it decides: (1) that a chemical being considered under TSCA section 4(a) may pose an "unreasonable risk" or is produced in "substantial" quantities that may result in substantial or significant human exposure or substantial environmental release of the chemical; (2) that additional data are needed to determine or predict the impacts of the chemical's manufacture, processing, distribution, use or disposal; and (3) that testing is needed to develop such data. Rules and consent orders under TSCA section 4 require that one manufacturer or

processor of a subject chemical perform the specified testing and report the results of that testing to EPA. TSCA section 4 also allows a manufacturer or processor of a subject chemical to apply for an exemption from the testing requirement if that testing will be or has been performed by another party. This information collection applies to reporting and recordkeeping activities associated with the information that EPA requires industry to provide in response to TSCA section 4 test rules, consent orders, test rule exemptions and other data submissions.

Responses to the collection of information are mandatory (see 40 CFR part 790). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 8.5 and 243 hours per response, not including CDX registration, and 0.53 hours per CDX registration. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are manufacturers, processors, importers, users, distributors or disposers of one or more specified chemical substances.

Estimated total number of potential respondents: 15.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 5.6.

Estimated total annual burden hours: 3,055 hours.

Estimated total annual costs: \$ 27,089,112. This includes an estimated burden cost of \$ 58,917 and an estimated cost of \$ 27,030,195 for capital investment or maintenance and operational costs (namely laboratory test costs).

III. Are There Changes in the Estimates from the Last Approval?

There is a decrease of 626,838 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease mainly reflects corrections to the previous renewal of this collection, plus reduced levels of activity in test rules, methodological corrections and updates, and requirements for electronic reporting of information. This change is both a program change (electronic reporting) and an adjustment (all other).

IV. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*
